You can see a sample of the outcome. This is even more pronounced in the conservative FAZ. We present how the entrepreneurial spirit is characterized in the newspaper articles.

They bring together a varied sample of well-known scholars from Eastern Europe. It considers the evolution of the use of discourse analysis in translation studies, presents current research from ten leading figures in the field and provides pointers for the future. For most qualitative work, the standard Microsoft or Apple office programmes will likely do the job. As you will see, translating your original data for a presentation or a thesis is not a trivial task.

Since the mid-90s, both governments and public-private initiatives concentrated on entrepreneurship. In Germany, newspapers printed fewer articles with a negative valuation of the entrepreneurial spirit in Germany, but they increased their comparisons to the US. Consecutive clauses represent the assumed effects of entrepreneurial spirit, e.g.
