Be the first to ask a question about The Triumph of the Fungi. Even with the development of fungicides and other scientific breakthroughs, fungi continue to be unstoppable - this is the story of their triumph. Like most fungi, Hemileia is a champion spore-producer.

Imported by the beetles, the fungus burgeons in the humid galleries and extends

No part of this publication may be reproduced, stored in a retrieval system, or transmitted, in any form or by any means, electronic, mechanical, photocopying, recording, or otherwise, without the prior permission of Oxford University Press. The book focuses on the fascinating biology of the well- and lesser-known diseases, and tells the stories of the scientists involved in their study and of the people directly impacted by the loss of forest trees like the chestnut, and cash crops such as coffee and cacao.

The initial sites are also connected by waterways, raising the 76 The Chocah closed, or so one might think. This isn't quite as ridiculous as it sounds.
