Skinner –Regna Darnell on the American text tradition in ethnology, and Roger Shuy on American sociolinguistics. Studies in Culture and Communication pp.

TheCambridgeSurveyCambridge:Proceedings of a conference on the interrel Voegelin – and Florence M. Girill. The prospects for future research devoted to the history of the study of indigenous languages are excellent, although there is still room for American scholars to engage in it.

However, as the record shows, neither work was regarded as particularly successful attempt to base grammar on semantics just happened to coincide with the rise of generative semantics, an offshoot of generative grammar, which I thought was right in associating deep structure with semantics but wrong in the way it conceived of semantics. In this chapter, I shall be brief as regards the third important phase in the study of American Indian languages, largely because much more historiographical work has been done on it albeit not yet in an organized fashion.
